

U.S. Congressman A. Donald

McEACHIN

The Infrastructure Investment and Jobs Act

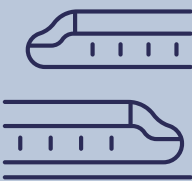

Impact In Virginia

The Infrastructure Investment and Jobs Act will help rebuild Virginia's infrastructure and strengthen its economy. For decades, the Commonwealth has suffered from a systemic lack of investment. The Infrastructure Investment and Jobs Act will improve the lives of Virginians, create a generation of good-paying union jobs and economic growth, and position the U.S. to remain competitive in the 21st century.

Infrastructure Investment and Jobs Act will:

Repair Roads and Bridges

In Virginia, there are 577 bridges and over 2,124 miles of highway in poor condition. Virginia will receive **\$7 billion for federal-aid highway apportioned programs and \$537 million for bridge repairs and replacement.**

Improve Healthy, Sustainable Transportation Options

Virginia's public transit system is an important resource for Virginian workers, students, and more. Virginia will receive **\$1.2 billion for public transportation options across the state.**

Make Infrastructure More Resilient to Climate Change, Extreme Weather, & Cyber Attacks

From 2010 to 2020, Virginia has experienced 40 extreme weather events, costing the state an estimated \$10 billion in damages. Virginia will receive **\$15 million for infrastructure resiliency and \$21 million for cybersecurity improvements.**

Build A Network of Electric Vehicle Chargers

Virginians face congested highways and long commute times, which contribute to increased air pollution. Virginia will receive **\$106 million for electric vehicle charging network expansion.** Virginia will also have the opportunity to apply for **\$2.5 billion in grant funding dedicated to electric vehicle charging.**

Connect Every Virginian with Reliable, High-Speed Internet

9.7% of Virginians live in areas where there is no broadband infrastructure that provides minimally acceptable speeds. 39.4% of Virginians live in areas where there is only one such internet provider.

Virginia will receive a minimum **\$100 million to help provide broadband coverage**, including providing access to the 473,000 Virginians who currently lack it.

Deliver Clean Drinking Water & Eliminate the Nation's Lead Service Lines & Pipes

Up to 10 million American households and 400,000 schools and childcare centers nationwide lack safe drinking water. Virginia will receive **\$738 million for water infrastructure upgrades** to help ensure clean, safe drinking water for all Virginians.

Improve Virginian Airports

The United States built modern aviation, but our airports lag far behind our global competitors. Virginia will receive **\$386 million for airport infrastructure development.**
